

## TO THE RATEPAYERS OF THE R.M. OF VANSCOY

### **\*\* IMPORTANT LANDFILL INFORMATION \*\***

Saskatchewan Environment & Resource Management (SERM) has instructed the R.M. that major changes must be made in the way we handle our refuse.

We can no longer use an open pit landfill, and as a result we will have to haul our refuse to a certified landfill. We will be using a container to collect bagged household wastes. 1<sup>st</sup> / bag  
We will also have on site containers for cardboard, paper, and clean plastic containers.

We would encourage you to compost as much of your household waste as possible & recycle to reduce disposal costs.

We will reorganize the collection site and will accept scrap iron, washers, dryers, fridges, stoves, etc. concrete products, burnable wood in designated areas, at no cost.

**Due to the high cost of disposal - Effective May 1, 2001 we are forced to charge for the following:**

**Painted or Treated non burnable wood - \$30.00 for level 1/2 ton full.**

**Drywall - \$65.00 for 1/2 ton truck load.**

**Mattress, Box Springs, Chesterfield & Rugs - \$10.00 each**

No Commercial dumping will be allowed.

Commercial dumping must be done at a certified landfill i.e. Lorras or City of Saskatoon landfill.

We ask that you cooperate fully with the collection site attendants.

You will be charged at the collection site for all chargeable items.

Please remember we have a litter bylaw, anyone caught littering will be Prosecuted.  
We the Council of the R.M. of Vanscoy would appreciate your support in the preceding matter.

Thank you for your cooperation.
